"True-Blue Americans"

The Liberty Lobby, which distributed a 12-page smear against President Johnson during the election campaign and is now covertly opposing the Senate confirmation of Abe Fortas to the Supreme Court, lists some "true-blue Americans" among its sponsors.

Here is part of the roll-call:
Tyler Kent—The former Nazi spy who served five years (1940-1945) in a British prison for passing secret documents of our London Embassy, where he was a code clerk, to Axis agents.

Joseph P. Kamp—A professional hatemonger for over 30 years; a Nazi sympathizer and propagandist in the 1930s who served a jail sentence for contempt of Congress.

Kenneth Goff—Once a member of the Young Communist League, who defected in 1939, became a protege of Gerald L. K. Smith, and has been a professional hatemonger ever since.

Verne P. Kaub—Who heads the American Council of Christian Laymen of Madison, Wis., which distributes his pamphlet "How Red Is the National Council of Churches?"

With enemies like the above it looks as if Fortas did not need any friends.
